

HEI trailers!!!

*High-quality trailers
for small tractors,
made in Estonia.*

HEI 300 and

HEI 300 H

Dear customer,

Hei trailers are serviceable and functional trailers that meet European standards. The trailers are designed for use with lawn or other small tractors, ATVs, or cars. They are suited for transporting hay, soil, rocks, and wood, among other things.

Hei trailers come with either galvanized or painted surface finish. All trailers have a tilting carriage and a standard coupling.

The *HEI 300* model has a manually lifted carriage. The carriage of *HEI 300 H* model is lifted hydraulically with a hand pump.

The broad wheels with pneumatic tyres and bearings move without damaging the lawn. All trailers have been built on a sturdy metal frame that ensures serviceability and longevity.

Hydraulically lifted trailer *HEI 300 H*

Accessories – pull hook and hook
fastening plate reinforcement for lawn
tractor

HEI trailers!!!

HEI 1000 H

The bigger trailers *HEI 1000 H* are designed for use with ATVs, small tractors, or cars. The trailers have been built on a sturdy metal frame. The bulky wheels ensure good operation also in severe conditions. The rotary coupling allows for tipping on an uneven surface without putting pressure on the hauling vehicle's coupling mechanism.

The multi-purpose trailer *HEI 1000 H* can be used for transporting firewood, rocks, soil, hay, and much more. The carriage is lifted by hydraulic system which is operated with a hand pump. The front and back wall of the trailer can be removed quickly and easily. It takes just a few moments to add side wall raisings in order to prepare the trailer for transporting longer logs or bigger objects.

Specifications:

Trailer dimensions: 360x145x75cm
(LxWxH)

Carriage dimensions: 250x80x22cm
(LxWxH)

Weight: 180kg

Load capacity: 1000kg

Tyre width: 25cm

Finishing: powder coating or zinc

Warranty: 1 year

The price of trailer *HEI 1000 H* for retail sales agent: 870 EUR

Hydraulically lifted trailer *HEI 1000 H*

HEI trailers!!!

HEI 1000 Forest

Logging trailers *HEI 1000 Forest* are designed for use with ATVs, small tractors, or cars. The trailers have been built on a sturdy metal frame. The bulky wheels ensure good operation also in severe conditions. The rotary coupling allows for tipping on an uneven surface without putting pressure on the hauling vehicle's coupling mechanism.

The trailer *HEI 1000 Forest* is designed for transporting mostly logs measuring up to 3 metres.

Specifications:

Trailer dimensions: 300x145x75cm (LxWxH)

Weight: 80kg

Load capacity: 1000kg

Tyre width: 25cm

Finishing: powder coating or zinc

Warranty: 1 year

The price of trailer *HEI 1000 Forest* for retail sales agent: 490 EUR

The transport price of one order will be ca 500 EUR. This can be even less if there are more companies ordering from Denmark at the same time.

Sincerely,

Romet Rand
